

DEGREE FROM DAD . . . Doubly momentous was the graduation of Janice Ann Dabbs, whose associate in arts degree was awarded at El Camino College this week by her father, Jack N. Dabbs, president of the college board of trustees. The family resides in Torrance.

Two Youths Attending OSU Event

Bruce A. Cole of 2114 W. 161st St., and John R. Krone Jr., 16719 Glenburn Ave., are among 180 selected high school boys from seven states attending the seventh annual Junior Engineers and Scientists Summer Institute at Oregon State University.

The two-week course, which will end June 23, is designed to give promising high school boys an insight into engineering and science career opportunities and study requirements.

ALL FIELDS of engineering and science are covered in the intensive two-week program. Oregon State University professors are instructors and boys are divided into small groups to permit individual discussion and instruction.

In addition to their daily classroom schedule, boys visit campus research laboratories and observe operation of such specialized scientific instruments as the university's nuclear reactor, cyclotron, electronic computers and high voltage laboratories.

To qualify for the program, students must have demonstrated outstanding scholarship in science and mathematics and been recommended by their high school principals and science teachers.

BOYS ATTENDING this year's institute are from California, Washington, Oregon, Utah, Nevada, Indiana and North Dakota.

Started at Oregon State University in 1956, JESSI is now setting a pattern across the nation as a means of encouraging young people to prepare for scientific and technical careers. Similar programs will be held in 11 other states across the U.S. this year.

Art Subject for Baptist

Jesse Gutierrez will create another chalk drawing in the Evening Bible Hour in the Community Baptist Church of Torrance.

Both the chalk drawing and this evening's message will be on the theme, "God's Tool Chest."

Gutierrez is a Christian art student and has received many honors for his work.

"How Great Thou Art" is the title of this Sunday morning's message by the pastor, Rev. Richard C. Addison. This ser-

mon is the first in a series of Sunday morning messages on the theme, "What Is God Like?" Rev. Mr. Addison says, "What you think about God determines the way you live. Right thoughts about God are the keys to a satisfying life."

Sunday School for all ages begins at 9:45 a.m. The morning service is at 11 a.m. and the Evening Bible Hour at 7:30 p.m. The Community Baptist Church is located at 925 W. 223rd St.

CUB PACK 761-C

A weekend outing to Lake Arrowhead was enjoyed by 52 children and 28 adults recently, as an added feature of the regular monthly pack meeting, according to Cubmaster Bill Dempster.

The caravan left Evelyn Carr School at 7 a.m. and travelled to the lake, where all enjoyed various activities and presentation of awards to deserving youngsters.

Alcohol, taken in sufficient quantities, produces all the effects of intoxication.

Group to Investigate Federal Aid to TV

Proposed federal grants for educational television will be delved into by a recently appointed Educational Television Advisory Committee.

"In establishing this committee at my request, the 1961 legislature anticipated the recent action of the Congress to establish a federal program of grants to the states for educational television," Gov. Edmund G. Brown said.

"President Kennedy has signed the law, providing for a \$32 million program of aid to the states, but Congress still must appropriate the money. This action is expected in this session of the Congress."

"WHEN CONGRESS takes that action," the governor said, "we will be ready to submit a request for a grant."

The federal program provides for grants of up to \$1 million to states for educational television. Details of the regulations have not yet been worked out by the Department of Health, Education and Welfare.

The governor pointed out that "educators have just begun to explore the many possibilities of utilizing television in the classrooms."

"WE KNOW the potential for improving teaching and reducing teaching costs is enormous," the governor said, "but educational television for most individual school districts would be too costly. A coordinated state-community plan is needed. We must have such a plan in California, and we will."

The governor said he has asked the committee to meet "as soon as possible to begin exploration of plans for the best utilization of the federal grants."

THE GOVERNOR said that responsibility for developing educational television still will remain "largely with the community and local groups already involved in promoting community stations should redouble their efforts to draw up workable plans for developing and operating educational stations."

Representatives of community groups will be asked to assist the committee and should come forward now with their ideas, the governor said.

Bruinsma Plans Campaign For Local Congress Seat

Ted Bruinsma, recently elected nominee for Congress in the 17th Congressional District, received a dramatic demonstration of party support this past weekend.

Nearly 300 party leaders and campaign workers turned out to honor the San Pedro attorney-businessman with a victory celebration held at the Western Club Cafe in Gardena Friday night.

Sharing the head table with Bruinsma was Dr. Merle Boyce, his opponent in the June 5 primary.

"Dr. Boyce and I are in complete agreement on the issues of the forthcoming campaign," Bruinsma announced in his brief keynote speech.

"OUR CAMPAIGN strategy is no secret. We are going to talk about keeping money in your pockets for the things you want, instead of devising new schemes to move your money into the hands of the Washington politicians.

"We are going to talk about reducing taxes, instead of new gimmicks for increasing the deductions from your paycheck.

"We are going to talk about more jobs — jobs here in Gardena, Torrance, Wilmington, San Pedro, instead of jobs for Congressman King's relatives in Washington, D. C.

"We intend by Aug. 1 to have 1,500 people in our precinct organization who will help me spread the word that we can do something about these matters."

"PERSONALLY, from here on, I shall forgo the customary practice of speaking to Republican clubs and other groups that already know that I believe in sound responsible financing and limited government."

"Instead, committee members and myself will be seen on the doorsteps, at the markets, and at the factories where we shall convince voters that a change is necessary in this Congressional district.

"This will be a person-to-person campaign and it will be a winning campaign. We must replace absenteeism with dedicated hard work. We must replace money-wasting schemes with fiscal responsibility. We must have vigorous representation where none now exists.

"We are fortunate that everyone associated with this campaign is united on this purpose," Bruinsma concluded.

Medical Profession Urges Immunization

The elimination of paralytic polio in California through mass immunization programs using the Sabin oral vaccine is the goal this year of organized medicine and public health, according to Dr. Harold M. Erickson, deputy state health director.

Sav-on SUMMER GARDEN NEEDS SALE

50' or 25' Garden Hose
1/2" Bore . . . Lightweight green tempered plastic. Full flow heavy brass couplings. Kink-proof, will not harden or crack. 10 Year Guarantee. **2.49**
